

## Chole Mjini Lodge - Activities

### Activities

Whilst this is a great place to relax, lounging in your room or at the bar, there is plenty to do at Chole.

### Excursions

Mafia is a very quiet little island but it is worth making a trip to the sleepy capital Kilondoni. It is also fun just to walk around the small island of Chole. Alternatively Chole has three traditional dows and these are used for excursions to the sandbanks or neighboring islands to explore or enjoy the beaches as those directly on Chole are not good as the mangrove forest runs into the sea.

### Diving and snorkelling

Chole Bay is a marine park and there are plenty of wonderful sites for diving and snorkelling. In fact Chole is excellent for both novice and advanced divers and Jean is a fully qualified dive master and there is a dive centre on the island.

### Fishing

Game fishing can be organised but this is more the sort of resort for going out with the local fisherman and trying your luck the hard way.
